PETRONAS TWIN TOWERS

Dual Wonders in the Sky

Soaring to a height of 452 metres, the 88-storey twin structure is Kuala Lumpur's crown jewel.

Majestic by day and dazzling by night, the PETRONAS Twin Towers is one of the most recognised structures in the world.

A masterpiece of modern architecture, this building cleverly blends the intrinsic combination of Eastern and Western aesthetics in design, bringing you an epic marvel of steel and glass that will leave you captivated.

"The desire to reach for the sky runs very deep in the human psyche."

César Pelli
